

North Carolina House Districts as Redrawn in 2003

Average Annual Rates of Prostate Cancer Incidence, 2002-2004

White Males 18 and Over

*The rate in this district is based on cancer incidence of less than 25 cases, is unstable, and should be used with caution.

Rates are age adjusted to Census 2000 population, and use North Carolina Central Cancer Registry incidence records geocoded within a given district. 90% of all records were successfully geocoded. For questions about this map, contact the NC Central Cancer Registry at (919) 715-4574.

Legend

Rate Per 100,000 Population

	60.9 - 110.8
	110.9 - 126.8
	126.9 - 138.2
	138.3 - 156.5
	156.6 - 202.8

NC State Rate = 131.6
