Produced by the NC Central Cancer Registry, 3/2008.

Numbers are subject to change as files are updated.

Rates based on counts of less than 16 are unstable. Use with caution.

Column totals may not sum to published totals due to "unknown" or "other" values.

Cancers of the urinary bladder and breast include in situ cases.

CAUTION: Incidence rates published prior to 2005 and mortality rates prior to 2006 were calculated using the State Incidence rates for 2005 and mortality rates for 2006 used the Bridged-race population estimates obtained from the National Center for Health Statistics (Vintage 2006, available online at <http://www.cdc.gov/nchs/about/major/dvs/popbridge/popbridge.htm>).

Rates from different diagnosis years are not comparable.
